ARE ONLY FUNDED BY DONORS.

Purpose: The statistics are absolutely alarming! About 800,000 people are lured into human trafficking every year. The number of victims forced into the human trafficking industry are growing rapidly. As one of the fastest growing organized crimes today, this issue needs to be brought out of the dark and into the light. The issue is here in our own country and cities! Prevention is the key.

Warning Lights gives insight on the lures, signs and ways to respond to human trafficking. This program will give your audience a stronger sense of how to protect themselves and others. The awareness gained by your audience can literally save a life.

This program details lures of this extremely abusive crime. It also reveals the signs (“Warning Lights”) that are associated with an individual being victimized by trafficking. This program also gives understanding and direction on ways to help others avoid becoming victims by explaining how your actions, words and choices affect others.

I want to share the reality of this issue with the families, communities and professionals of this nation. Learn more about my story through video at www.jennatwar.com. I look forward to working with you to take your circle of influence and change it into a circle of protection! Awareness is building value by protecting our bodies and guarding our hearts!

Be courageous! Be aware and SHARE!
